

## Early Admissions Exams: Your Fast Track Enrollment

You want to apply for the Mechanical Engineering Bachelor Program at the Carl Benz School of Engineering? Since 2015, we offer the Early Admissions Exams for high school students who are not sure if they get direct admission. Direct admission is only possible if students have a secondary school leaving certificate equivalent to the German Abitur, profound knowledge in advanced Mathematics, Physics and Chemistry as well as excellent final grades. The Early Admissions Exams can be taken if you already are proficient in higher/advanced level Mathematics, Physics and Chemistry. By successfully participating in the exams you will already know by May if you will be part of the new intake and the CBS community!
